

Green River Regional Educational Cooperative

Proudly Presents

The Digital Natives Are Restless! **Supporting ELA Common Core Standards with** **Effective & Efficient Use of Technology in the K-5 Classroom** **Workshop #070 – 13 (8:30 – 3:30 CDT)**

About the presenters: Nancy Huston (pictured left) is GRREC's Elementary Specialist! Full of energy, excitement and years of experiences this Elementary Consultant is sure to wow you with her passion for engaging students' through the effective use of research-based strategies fueled by the efficient use of technology. Terri Stice (pictured right) brings over 20 years of experience within K-12 education to this professional development opportunity. Terri has worked in the elementary school environment as a computer applications teacher and has coached many K-12 classroom teachers in utilizing technology to its fullest potential.

How do I provide my students with a learning environment in which knowledge is constructed by students and the teacher is a facilitator of thinking rather than (merely) the presenter of information? The demands of the **Common Core State Standards** and the demands of our “**Digital Natives**” make it imperative that we integrate learning with technology in a purposeful way. Please join us as we spend the day integrating the K-5 ELA Common Core Standards with technology in an authentic and seamless way.

Participants will:

- Learn new and creative strategies to increase student **engagement**, while focusing on the **ELA Common Core Standards** with embedded **technology skills**.
- Look beyond the “**wow factor**” and examine how to utilize the best technology tool to **create dynamic** and engaging lessons for today's learners.
- **Focus on the learning** (student-centered) and not on the use of technology.
- Learn how to best support students with a depth of understanding regarding their roles and responsibilities as they **grow and flourish in a digital society**.

Bring your own device and take advantage of opportunities for hands-on learning!
